

*Living well*

BLENHEIM  
HOUSE

MELKSHAM

*Live happily,  
live luxuriously,  
live well*

**Welcome to Blenheim House.  
We make a promise to every  
resident to make our home their's,  
to empower them to live well  
today and thrive tomorrow.**

**BLENHEIM  
HOUSE**

MELKSHAM

*A home from home*

*Berkley Care*

Berkley Care Group was formed over two decades ago and quickly became synonymous with a new model of care home. One that understood the importance of comfort and luxury in tandem with compassionate, first rate care. It has been a model which has since become our 'norm' of which we are incredibly proud.

## ALL INCLUSIVE CARE AT BLENHEIM HOUSE

At Blenheim House, we understand the worries that residents and families face when it comes to fees. No one wants a surprise bill and no one wants to live knowing what they'll be paying from one month to the next. That's why we're proud of our all-inclusive pricing. This gives our residents, and their families, the knowledge that everything is included in just one fee.

By everything, we really do mean everything. It could be that it's a trip to the on-site hairdressers, an evening of entertainment, or friends and family over for a spot of lunch. No matter what it is, there's never anything extra to pay. We're proud of this package and we know that our residents and their families are big fans too.

## ETHOS & VALUES

The underlying sense of 'family' is key to everything we do at Blenheim House. Our residents are cherished and celebrated as if they were our own parents and grandparents.

We do this first by creating a welcoming, homely environment and most importantly by emphasising the importance of individuality and choice. We understand that for some people, moving into a new home can be an anxious time however our team will ensure that the transition from your own home to Blenheim House will be a positive experience and one that will leave you wondering why you hadn't made the move sooner.

Just like in your own home, whatever you want to do and however you want it done is how it will be done at Blenheim House. The only difference is that you don't have to worry about the cooking and cleaning, and there is a ready-made community of friends just next door.

Our pledge to all of our residents is based not just on the bare minimum that's required, it is about going further each day in order to achieve positive outcomes for everyone, protect individuals and maintain an exceptional, happy home.

# Types of Care

## RESIDENTIAL

A lot of our care home residents are perfectly able to live alone, but with extra help on hand for the day-to-day tasks, it frees up so much time to enjoy the company of others and to explore new pastimes and revisit existing interests. There is a great sense of wellbeing from living in a happy community, and you are guaranteed that at Blenheim House.

## NURSING

Specialist, round-the-clock nursing care means that our residents need not worry about moving out of the home should their needs change while living with us. Our dedicated nurses care for nursing residents, night and day and residents' freedom of choice and independence is always supported and encouraged, regardless of changing medical needs.

## DEMENTIA

For those of our residents living with memory loss, our focus is on enabling them to continue living as well as they are able. It is often surprising to the families of residents with dementia how much of a difference living in an environment which is totally committed to them makes. With dedicated support and with their individuality championed, it is a weight off the mind of most families.

## RESPITE CARE

For residents who are looked after at home or elsewhere, just like our carers, theirs will need a break at some point, to be able to continue to offer the best care they can. The same services our permanent residents receive are available, but simply on a short-term basis. We offer a two week minimum respite stay where you can sample the care and lifestyle that is available. Many residents also like to try respite care before committing to living with us full time.

A close-up photograph of an elderly man with white hair and a mustache, wearing dark sunglasses and a light blue button-down shirt. He is leaning over, holding a clear plastic watering can and spraying water onto several small green plants growing in a dark-colored planter. The background is slightly blurred, showing more of the garden area.

*A place to unwind*

*Glorious gardens*

We are most impressed by the care which is provided here at the Care Home. The two resident nurses are absolutely outstanding in everything they do and say and I am kept up to date on my husband's medical situation. The meals provided are better than a five-star hotel, first-class in choice and presentation. There is always a warm welcome when arriving at the home and all the staff are pleasant, helpful and polite.

*Delicious food*

## Food, Drink & Nutrition

Our food is nothing short of amazing, all the time. We understand that nutrition and hydration is the foundation of an individual's wellbeing, and also that food and drink is at the centre of our social culture, so providing delicious home cooked and appetising meals, prepared by our team of home chefs, is essential.

So whether it's breakfast, or an evening's entertainment, the food & drink will always go beyond expectations and, what's more - there's no washing up to do!

We offer a fully-stocked bar which is open to our residents, their families and friends, whenever they like.

## Events, Activities & Social

Whether it's a game of snakes and ladders with the grandchildren or a fully blown casino night complete with musical acts and food, a vibrant social scene is at the core of Blenheim House and everything we do. Families are actively encouraged to join us too.

Our minibus ensures that our residents enjoy the best of trips out too. We've been as far afield as the seaside, or as close as the local garden centre – whatever we do and wherever we go, it's always driven by the desires of our residents.

*Enjoy yourself*

“The team have been incredible since my dad moved in. The staff have been so supportive and looked after my dad in ways I couldn’t imagine. I cannot thank them all enough. The facilities are amazing and easily accessible for everyone. Would recommend anyone to visit or live here.”
